This proceedings volume is dedicated to

## DR. ZOLTAN KENESSEY

whose ideas and support were instrumental in making Agricultural Statistics 2000 a reality.

The international community of agricultural statisticians has lost an advocate and a friend, but his legacy will live on.

### **PREFACE**

In March 1998, the first international conference on agricultural statistics to be sponsored by the International Statistical Institute was held in Washington, D.C. *Agricultural Statistics 2000* brought together statisticians from 50 countries around the world to discuss the future needs for agricultural statistics and the requirements for statistical and technological development to meet those needs.

The National Agricultural Statistics Service of the United States Department of Agriculture was honored to host and organize this event. The Development Data Group of the World Bank sponsored a reception for conference participants, and additional financial support was provided by the Food and Agriculture Organization of the United Nations (FAO) and the Statistical Office of the European Communities (Eurostat).

The conference program was divided into six half-day sessions, each devoted to a specific topic. Following the presentation of invited papers on each designated session topic, a discussant summarized the papers and raised issues for further discussion among all conference participants. This proceedings volume contains the 31 invited papers presented at the conference, the comments presented by the 6 session discussants, opening and closing remarks from the conference organizers, and 16 papers contributed by other conference participants. (Comments made during open discussions were not captured for publication.) The list of conference participants, which reads like a "Who's Who" in the world of agricultural statistics, is also included for future reference.

Please note that the views expressed herein are those of the authors and not necessarily those of the ISI or other organizations represented at the conference.

#### TABLE OF CONTENTS

PAGE
Agricultural Statistics 2000: Opening Remarks
~ Fred Vogel, Program Chair, National Agricultural Statistics Service, USDA ~ Marcel P.R. Van den Broecke, Director, International Statistical Institute ~ Donald M. Bay, Administrator, National Agricultural Statistics Service, USDA
Agricultural Statistics Requirements and Uses
Agricultural Statistics for Public Policy Issues
Agricultural Statistics for Private Sector and Global Marketing
Agricultural Statistics for Environmental Monitoring and Policy
Agricultural Statistics for Rural Development
International Standards and Definitions for Agricultural Statistics and Requirements for World Census of Agriculture
Discussion
Sources of Agricultural Statistics - Part 1
Experience with Annual Censuses of Agriculture
Experiences with Census of Agriculture in Africa
Sampling Strategy for Agricultural Censuses and Surveys in Developing Countries 83 ~ Isidoro P. David, Asian Development Bank
Agricultural Census and Improvement of Rural Statistics in China
Integration of Administrative Data with Survey and Census Data
Discussion

Sources of Agricultural Statistics - Part 2
Crop Cutting vs. Farmer Reports - Review of Swedish Findings
Agrometeorological Crop Yield Forecasting Methods
Statistics Canada's Near Real-Time Crop Condition Assessment Program Utilizing NOAA AVHRR Data - Remote Sensing, GIS and the Internet
Data Collection for Environmental Monitoring of the Agriculture Industry
Surveys for Farm Structure, Agricultural Accounts and Total Income of Agricultural Households
Discussion
Advancements in Survey Methodology and Analysis
The National Resources Inventory and its Role in U.S. Agriculture
Land Cover and Land Use Classification using TER-UTI
Utilization of Document Imaging Technology by the 1996 Canadian Census of Agriculture 20 ~ Mel Jones & Ivan Green, Statistics Canada
New Methods of Editing and Imputation
Partial Overlap Samples and Combining Information
Small Area Estimation in India - Crop Yield and Acreage Statistics
Discussion
Remote Sensing & Geographic Information Systems for Agricultural Statistics
New Elements for Harmonized Approaches on Land Cover/Land Use Information Systems 25  ~ Jean Meyer-Roux & A. Annoni, Joint Research Centre of the European Commission,  C. Vidal & D.W. Heath, Statistical Office of the European Communities, & C. Duhamel, CESD-Communautaire

Area Frame Sample Designs: A Comparison with the MARS Project	261
Remote Sensing in Mexico	278
Crop Monitoring in Morocco Using Remote Sensing and Geographic Information Systems: From a Management Perspective	282
GIS Use in the Framework of a National Statistical Office:  Establishment of Land Use Statistics and Geocoding of National Censuses	291
Discussion	305
Future Perspectives for Agricultural Statistics	
Issues and Concerns for Developed Countries	311
Issues and Concerns for Emerging Market Countries	323
Issues and Concerns for Developing Countries	332
Technological Trends in Statistics: the Dutch Perspective	
Trends Affecting Agricultural Statisticians	343
Discussion	351
Agricultural Statistics 2000: Closing Remarks	355
~ Fred Vogel, Program Chair, National Agricultural Statistics Service, USDA	
Contributed Papers	
Spatial Sampling Strategies	359
Eurostat's Input and Candidate Countries: Agricultural Statistics	361

	Food Consumption Survey in Korea	364
	Γechnology Can Answer Information Needs on Agricultural New Open Markets e-Christine Delucq & Damien Lepoutre, GEOSYS, Ramonville, France	366
	in Israeli Agriculture	369
	ernational UNIX and Freeware for Statisticians	371
	Id Forecast Based on Cob Size	374
	Design for a Farm Household Economy Survey in Korea	377
	tine National Census of Agriculture of 1998	379
	es with Census of Agriculture in Korea	381
	timating Method for Normal Yield of Rice	383
	ojective Crop Forecasts	385
	Estimation of Production Total Using Specific Sampling Designs	387
	of Per-Farm Indexes for Each Product Sector from a Farm Management Survey	389
	tion of the Official Australian Agricultural Statistics Collection System urd Whybrow, Queensland Department of Primary Industries, Australia	391
	Formation Service for Fresh Food in Japan	394
Appendix A:	Index of Authors and Presenters	399
Appendix B:	Conference Program	401
Appendix C:	Conference Participants (alphabetically)
